

## **Autodata commended at GEA annual event**

Autodata was presented with an award during the Garage Equipment Association's (GEA) annual dinner, held at the Birmingham Hilton Metropole Hotel, on April 14th.

The GEA has been upholding the standards of equipment sold and services provided by all members since its inception in 1945 and Autodata has been a longstanding member of the association.

Autodata's Technical Liaison and Licensing Manager, Malcolm Rixon, received the award on behalf of the Maidenhead-based firm.

The award was presented by David Main of BEN (the Motor & Allied Trades Benevolent Fund) in recognition of Autodata's contributions to the fund during the last 12 months.

Commenting after the event, Mr Rixon said: "We were delighted to attend the GEA's annual dinner and to receive this award from BEN. The charity does incredible work and Autodata is pleased to continue with its support for BEN on behalf of Motor Trade employees both past and present.

"We'd like to thank BEN again for recognising us in this way and we look forward to working closely with the GEA and BEN in the future."
